Dear SOGC medical students,

The SOGC Resident Undergraduate Committee has compiled a list of volunteer ob/gyn residents acting on behalf of their respective sites as “Resident Champions” in promotion of their programs and to benefit undergraduate medical students interested in obtaining a position in an obstetrics and gynaecology residency program.

These residents are willing to be contacted by medical students interested in a career in ob/gyn to assist in answering specific questions about their program, site, CaRMS and/or elective opportunities. This is an opportunity for students to have assistance throughout the very difficult process of obtaining appropriate opportunities, applications, and ensuring the right fit as a future resident within each ob/gyn program.

Residents willing to be contacted are as follows:
